

To Access Your Mock AP Exam Questions

1. Go to <https://myap.collegeboard.org> before 10:30am
2. Log in using your AP credentials
3. Once you've logged in, you should see a list of all your current enrolled AP courses. Under AP Calculus, click on Full Assignment List
4. After 10:30am, look for the assignment "MockAP1: Q1." This assignment is already set to be visible no earlier than 10:30am and no later than 11:00am, so if you do not see the assignment, you may be too early (or too late). If it's past 10:30 but before 11, and you still don't see it on the assignment list, try refreshing the page.
5. Click "Begin"
6. Submit your answers by uploading them here. A wide variety of formats are allowed, so choose whichever is fastest for you. **You must complete all parts of Question 1.**
7. Once you have uploaded all parts of the question, submit Question 1.
8. At 11:00am, look for the assignment "MockAP1: Q2," and complete it as well. This assignment will close at 11:30, and will only be visible after 11:00. **You only need to complete parts (a), (b) and (c) for Question 2.** However, you may choose to complete part (d) for extra credit if you wish.

TIPS & WARNINGS

- Try to log on at least 10 minutes before the start of the test to make sure everything is working properly.
- Use the bathroom *before* starting the test.
- This is a non-calculator test, so try to avoid the temptation to use it. Believe me, it is more likely to hurt you than help you.
- Remember, unsimplified answers are allowed, so long as the correct values have been plugged into the correct equation
- Try to get a full night's rest the night before
